March 23, 2009

Department of Building, Planning and
Development:

We want to express our concern
on possible changes in the building
code in our area.

When the foundry started up down
the road we experienced a black
residue on our roof hang on back side
of our house. We had carpet on the
deck and replaced it once only to have
it turn black again. It was green - so
it had to be removed.

We do not want any changes in our
area. The value of our house will
deteriorate and traffic increase.
We prefer to keep things as they
are.

Respectfully
Bill & Barbara Davis
