**Powder coated steel hub**  
Better on the environment

	12inches
<b>Brand</b>	Kavedodu
<b>Wheel Size</b>	12 Inches
<b>Rim Size</b>	12 Inches
<b>Item Diameter</b>	12 Inches
<b>Vehicle Service Type</b>	Truck
<b>Load Index</b>	300

Material  
PolyurethaneWheel Backspacing  
3.5 Inches**About this item**

- [Solid rubber tires and wheels] - 2pcs 410/350-6 tires and wheels, 12 inch flat free wheels with 3/4 inch center bearing and 3.5 inch tire width. All are solid, strong, and durable, with wear-resistant pressure and corrosion resistance.
- [Strong load bearing] - The tire tread is made of high-quality polyurethane, and the bearing is made of high-quality steel. Double bearings. The wheel hub is wider so the load bear is stronger. The maximum load capacity per wheel assembly is 330 lbs and the maximum load capacity weight of the 2 wheels is 660 lbs. Diamond pattern design, more friction, more anti-skid. Note: This load capacity is a dynamic load and is not suitable for placing heavy goods at rest for a long time.
- [Easy to install] - These wheel assemblies are easy to install and remove. Just insert the wheel into the axle and fix the axle nut cover or cotter pin. We also provide an additional 8 metal spacers and 4 pins.
- [Wide range of uses] - The solid tire is applicable to work carriages, garden cars, garden multi-function trucks, shelves, lawn trailers, recycling boxes, hose cars, trucks, repair vehicles, gorillas, yard cars, etc. Note: Please make sure that the size meets your needs.
- [Get rid of inflation] Use the solid tires and never worry about air leakage on the trolley again. It is so comforting to know
