WIMS Premier Upgrade Implementation

The WIMS Premier Upgrade service includes the tasks necessary to configure a 2-way sync between up to (2) WIMS Classic Facility Databases and WIMS Rio Operations.

Includes:

- 2-hr Discovery Session & Database Review
- Database Preparation using checklist
- 3-hr Install & Data Sync Meeting
- 1-hr Testing Session
- 2-hr Admin Training Session
- 2-hr End User Training Session
- Post Go Live Session two weeks following completed implementation
- Project Planning & Management

Assumptions

- Assumes customer has a working instance of WIMS.
- This service only includes syncing of up to 2 facility databases (operations).
- Requires a 1:1 relationship between a Rio operation and a WIMS Classic facility. Additional budget may be required if the Customer's WIMS database does not support this relationship.
- This service requires the customer to install Rio sync tools on their local server with internet access.
- Database preparation is limited to activities in the database prep checklist up to four (4) hours. Additional database preparation and/or cleanup activities are subject to additional scope and budget. Checklist: <https://www.opssys.com/InstantKB/article.aspx?id=14783>
- This service does not include creation or setup of additional variables, reports, dashboards, etc.
