Recommendation

About this item

- **Acrylic Tape:** this sealing tape is manufactured with an impact-resistant backing that ensures protection of surfaces against abrasion, wear, marks, or scratches
- **Squeak Reduction:** adhering suitably to metallic or plastic surfaces, the heavy-duty tape helps minimize squeaking and rattling caused from vibration or wear. The thin tape forms a "slip plane" effect that ensures frictionless contact
- **Applications:** this high-tack tape can be reliably used on the surfaces of painted metallic and plastic materials — ideal to be used at manufacturing, distribution, and automotive industries. The film tape is resistant to abrasion
- **Longevity:** the sealing tape does not let ink, adhesive, or other tacky substances stick to its surface. The self-lubricating tape lasts longer than PTFE tapes in sliding applications
- **3M Preferred Converter:** TapeCase is a 3M Preferred Converter; 3M has partnered with TapeCase to make their products available in a larger assortment of sizes, so that customers can use the tape in a variety of applications.
