\$52.95

FREE Returns

Get \$100 off instantly: Pay \$0.00 ~~\$52.95~~ upon approval for the Amazon Store Card. No annual fee.

Size:

6 Feet

Color: Black

- CABLE WILL NOT WORK unless the integrated thermostat is exposed to ambient temperatures below 37°F. Please test cable with ice pack before installing.
- USES: Use on all types of water carrying pipe including copper, steel, PVC, ABS, PEX and more; not for use outdoors or inside pipes. Buy Heat Tape Pro for outdoor applications!
- AMERICAN COMPANY: You betcha! Knowledgeable, friendly Minnesotans are ready to help with your installation questions.
- HEAVY DUTY: No cheap heat shrink connections, Integrated thermostat turns cable on at 37°F, off at 50°F. Cable includes a 36" unheated cord (add to stated cable length). Cable has a commercial-grade outer jacket for longer life.
- FEATURING GLOWCAP: Our patented intelligent cable cap tells you the entire cable is working. No other cable in the world has this feature!
